

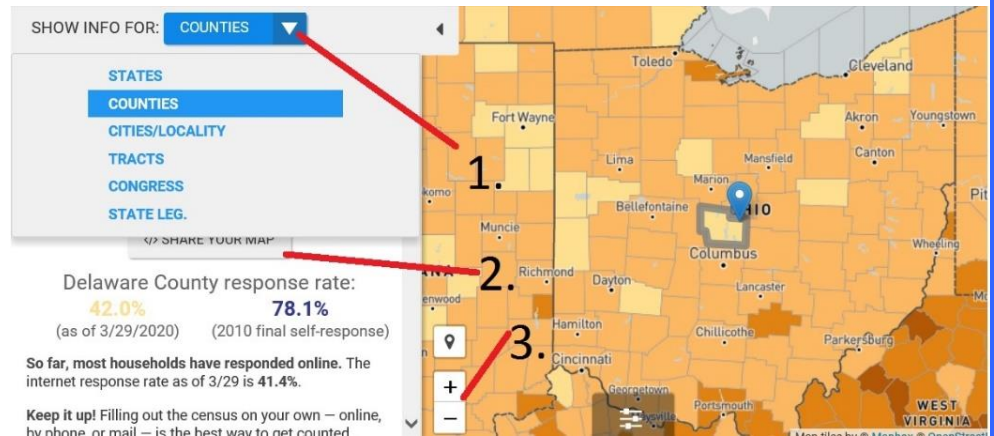

Mapping “Self-Response” for a Fair and Accurate 2020 Census

The 2020 Census Response Rate Map has been integrated into another tool developed by The City University of New York (CUNY). This detailed map shows both the 2010 and 2020 self-response rate making it simple to measure your community’s progress. Use this link to explore the data on your own: [HTC 2020 Map](#)

Remember that filling out the census form right away means you'll avoid a knock at your door later by a census taker whose job is to count individuals in-person. Respond online, by phone or by mail by August 14, 2020.

CONTROLS:

1. Use the dropdown menu to select: Counties, Cities/Locality, or Tracts.
2. Use the “SHARE YOUR MAP” button to copy links.
3. The + - symbols will zoom in/out.

Curious about how your community is responding? The counties listed below are **linked directly to the map**. After viewing the map, click the “Share Your Map” button on the left to copy and save the link for future reference or to embed the map on a website.

COUNTIES	Defiance	Huron	Morgan	Summit
Adams	Delaware	Jackson	Morrow	Trumbull
Allen	Erie	Jefferson	Muskingum	Tuscarawas
